European Conference on Desalination and the Environment
Las Palmas, Gran Canaria, 9–12 November 1999
European Desalination Society, International Water Services Association

CONTENTS
Desalination Volumes 124, 125, 126

DESALINATION VOLUME 124 (Proceedings Vol. 1)

Session 1 Introductions

A procedure for environmental impact assessments (EIA) for seawater desalination plants 1
Th. Hoepner (Germany)

Concessions in the water sector 13
F. Rillaerts (Belgium)

Sustainability assessment of desalination plants for water production 19
N.H. Afgan (Portugal), M. Darwish (Kuwait) and M.G. Carvalho (Portugal)

Session 2 Scaling and fouling

RO plant experiences with high silica waters in the Canary Islands 33
E.D. Darton (UK)

A novel inhibitor for scale control in water desalination 43
J.S. Gill (USA)

Controlling scaling in membrane filtration systems using a desupersaturation unit 51
I. Bremere, M.Kennedy, P. Michel, R. van Emmerik, G.-J. Witkamp and J. Schippers (The Netherlands)

New antifoulants for deposit control in MSF and MED plants 63
S. Patel and M.A. Finan (UK)

Session 3 Materials and electrodialysis

Technical and economic aspects of stainless steels in MSF desalination plants 75
J.W. Oldfield and B. Todd (UK)

Solid stainless steel for MSF once-through plants 85
J. Olsson (Sweden) and K. Minnich (USA)

Localized corrosion of copper alloys by optical interferometry and other techniques 93
K. Habib (Kuwait)

Optimization of material selection for evaporative desalination plants in order to achieve the highest cost-benefit ratio 99
C. Sommariva, D. Pinciroli, E. Tolle and R. Adinolfi (Italy)

Dependence of salt and water ion fluxes through ion-exchange membranes under electrodiaslysis on the ion-exchange bed composition 105
K.A. Iurash, V.V. Nikonenko, N.D. Pismenskaya, V.I. Zabolotsky and E.I. Volodina (Russia)

Session 4 Removal of specific compounds

Interests and limitations of nanofiltration for the removal of volatile organic compounds in drinking water production 115
G. Ducom and C. Cabassud (France)

Boron behavior during desalination of sea and underground water by electrodialysis 125
L. Melnik, O. Vysotskaja and B. Kornilovich (Ukraine)

Boron removal from seawater reverse osmosis permeate utilizing selective ion exchange resin 131
N. Nadav (Israel)

Removal efficiency of Cu^{2+}, Cd^{2+} and Pb^{2+} by waste brewery biomass: pH and cation association effects 137
P.A. Marques, H.M. Pinheiro, J.A. Teixeira and M.F. Rosal (Portugal)

Session 5 Water resources and membrane materials

Integrated water resources management (IWRM): an approach to face the challenges of the next century and to avert future crises 145
A. Al Radif (Canada)

Business in the Caribbean and fast track B.O.O.M. desalting plants and unique features 155
W.C. Barendsen (Netherlands Antilles)

Brackish water desalination: an alternative for water supply enhancement in Jordan 163
M.S. Mohsen and O.R. Al-Jayyousi (Jordan)

Characterization of commercial RO and UF modified and fouled membrane by means of ATR/FTIR 175
S. Belfer, J. Gilron and O. Kedem (Israel)

Chemically active textile materials as efficient means for water purification 181
V.S. Soldatov, A.A. Shunkevich, I.S. Elinson (Belarus), J. Johann and H. Iraushek (Austria)

Session 6 Wastewater treatment

Treatment of household wastewater using an intermittently aerated membrane bioreactor 193
I.-T. Yeom, Y.-M. Nah and K.-H. Ahn (Korea)

Desalination of surface water to industrial water with lower impact on the environment. Part 4: Treatment of effluents from water desalination stages for reuse and balance of the new technological concept for water desalination 205
V. Mavrov, H. Chmiel, B. Heitele and F. Roegener (Germany)

Separation methods for closed-loop manufacture of bleached kraft pulp — overview of an EU project 217
P. Tomani and A. Seisto (Sweden)

Optimization of oil-containing wastewater treatment processes 225
F.A. Abilov, A.G. Orudjev and R. Lange (Azerbaijan)

The effect of ultrafiltration as pretreatment to reverse osmosis in wastewater reuse and seawater desalination applications 231
S.C.J.M. van Hoof (The Netherlands), A. Hashim (Bahrain) and A.J. Kordes (The Netherlands)

Energetic and exergetic analysis of an integrated membrane desalination system 243
A. Criscuoli and E. Drioli (Italy)

Session 7 Wastewater treatment

Advanced technologies for municipal wastewater purification: technical and economic assessment 251
M. Abdel-Jawad, S. Ebrahim, M. Al-Tabtabaei and S. Al-Shammari (Kuwait)

Treatment of industrial wastewater for reuse 263
F. Buhrmann, M. van der Waldt, D. Hanekom (South Africa) and F. Finlayson (Scotland)

Wastewater reuse through dual-membrane processes: opportunities for sustainable water resources 271
M.P. del Pino (Spain) and B. Durham (UK)

Retrofitting municipal sewage treatment plant using an innovative membrane-bioreactor system 279
K.-H. Ahn, H.-Y. Cha and K.-G. Song (Korea)

Innovative ultrafiltration for wastewater reuse 287
M. Mignani, G. Nosenzo and A. Gualdi (Italy)

AUTHOR INDEX 293

DESALINATION VOLUME 125 (Proceedings Vol. 2)

Session 8 Seawater reverse osmosis

Mature and novel desalination experiences with the FILMTEC SW30HR-380 and SW30HR-320 elements. Technical-economical review 1
J.A. Redondo (Germany) and A. Casañas (Spain)

High recovery / high pressure RO membranes for brine conversion SWRO process development and its performance data 9
M. Kurihara, H. Yamamura and T. Nakanishi (Japan)

Twenty-five years of desalination in the Canary Islands: a historical review of the application of reverse osmosis using case studies and operational experience 17
P. Moss (UK) and J.M. de Lara y Gil (Spain)

SWRO — the largest plant in British waters 25
N. Marsh, J. Howard, F. Finlayson and S. Rybar (UK)

Optimisation of membrane regeneration scheduling in reverse osmosis networks for seawater desalination 37
H.J. See, V.S. Vassiliadis and D.I. Wilson (UK)

Experimental test of TOYOBO membranes for seawater desalination at Las Palmas, Spain 55
A. Munoz Elguera, A. Nunez (Spain) and M. Nishida (Japan)

Session 9 Reverse osmosis pretreatment

Removal of organic foulants from feed waters by dynamic membranes 65
M. Altman, R. Semiat and D. Hasson (Israel)

Sea water filtration for fouling prevention under stormy conditions 77
B. Tenzer, A. Adin and M. Priel (Israel)

Assessment of UF pretreatment prior RO membranes for seawater desalination 89
A. Teuler, K. Glucina and J.M. Laîné (France)

Surface water treatment using nanofiltration — pilot testing results and design considerations 97
C.R. Reiss, J.S. Taylor and C. Robert (USA)

Brackish and seawater pretreatment using an ultrafiltration hydrofilic® membrane 113
W. Pergande (USA)

Session 10 Renewable energy

Cost optimization studies on a multi-stage stacked tray solar still 115
R.S. Adhikari and A. Kumar (India)

Renewable energy sources for water desalting in Tunisia 123
I. Houcine, F. Ben Jemaa, M.H. Chahbani and M. Maalej (Tunisia)

Conditions for economical benefits of the use of solar energy in multistage flash distillation 133
L. García-Rodríguez and C. Gómez-Camacho (Spain)

Application of direct steam generation into a solar parabolic trough collector to multieffect distillation 139
L. García-Rodríguez, A.I. Palmero-Marrero and C. Gómez-Camacho (Spain)

Experimentation and modelling of an innovative geothermal desalination unit 147
K. Bourouni, J.C. Deronzier and L. Tadrist (France)

Session 11 Energy recovery and saving

VARI-RO solar-powered desalting technology 155
W.D. Childs, A.E. Dabiri (USA), H.A. Al-Hinai and H.A. Abdullah (Oman)

Optimization of the energy demand of reverse osmosis with a pressure-exchange system 167
P. Geisler, W. Krumm and Th. Peters (Germany)

Energy recovery for membrane desalination 173
C. Harris (USA)

Variable speed turbo couplings used as pump drive in desalination plants 181
R. Höfert (Germany)

Session 12 Cogeneration and distillation

The Taweelah A2 independent water and power project 191
N. Wade, J. Willis (UK) and J. McSorley (Singapore)

Cogeneration applied to very high efficiency thermal seawater desalination plants 203
J. de Gunzbourg and D. Larger (France)

Privatization of dual-purpose seawater desalination and power plants — structures, procedures and prospects for the future 209
A. Korn, M Bisanz and H. Ludwig (Germany)

Means and merits of higher temperature operation in dual-purpose plants 213
M.A.K. Al-Sofi, A.M. Hassan, O.A. Hamad, G.M. Mustafa, A.G.I. Dalvi and M.N.M. Kither (Saudi Arabia)

Cogeneration applied to water desalination: Simulation of different technologies 223
M.J. Safi and A. Korchani (Tunisia)

Las Palmas–Telde Desalination Plant 231
J.M. Sanchez, E. Gonzalez and M. Tramer (Spain)

Session 13 Distillation

A study and comparison of plate and tubular evaporators 233
O. Al-Hawaj (Kuwait)

Plate heat exchangers — the new trend in thermal desalination 243
J.B. Tonner, S. Hinge and C. Legorreta (Denmark)

Thermoeconomics of some options of large mechanical vapor compression units 251
Y.M. El-Sayed (USA)

Multiple-effect evaporation desalination systems: thermal analysis 259
H.T. El-Dessouky and H.M Ettouney (Kuwait)

A simulator for thermal desalination processes 277
H.M. Ettouney and H.T. El-Dessouky (Kuwait)

AUTHOR INDEX 293

DESALINATION VOLUME 126 (Proceedings Vol. 3)

Treatment of wastewater by ultrafiltration 1
D. Abdessemed, G. Nezzal (Algeria) and R. Ben Aïm (France)

Treatment of domestic wastewater using microfiltration for reuse of wastewater 7
K.-H. Ahn and K.-G. Song (Korea)

Process control in water desalination industry: an overview 15
I. Alatiqi, H. Ettouney and H. El-Dessouky (Kuwait)

Modeling an industrial reverse osmosis unit 33
N.M. Al-Bastaki and A. Abbas (Bahrain)

Brackish water management and use in Jordan 41
M.S. Al-Hadidi (Jordan)

Multi-effect distillation plants: state of the art 45
M. Al-Shammiri and M. Safar (Kuwait)

Fouling phenomena in multi stage flash (MSF) distillers 61
M.A.K. Al-Sofi (Saudi Arabia)

Production of sodium hypochlorite in an electrolyser equipped with a ceramic membrane 77
S.Yu. Bashtan, V.V. Goncharuk, R.D. Chebotareva, V.N. Belyakov (Ukraine) and V.M. Linkov (South Africa)

UV absorption cross sections for acetates 83
B. Benayada and D.O. Leila (Algeria)

The recovery of backwash water from sand filters by ultrafiltration 87
C. Dotremont, B. Molenberghs, W. Doyen, P. Bielen and K. Huysman (Belgium)

Removal concentration and desalination of bovine seroalbumin (BSA) with membrane technology 95
S.O. Fernández, J.A. Rodríguez and A. Pérez Padilla (Argentina)

A hybrid membrane process for Cu(II) removal from industrial wastewaters. Comparison with a conventional process system 101
V. Flores and C. Cabassud (France)

Preliminary design and cost analysis of a solar distillation system **109**
L. García-Rodríguez and C. Gómez-Camacho (Spain)

Transport characterisation in flat reverse osmosis membranes: Utilisation of the Kimura–Sourirajan analysis method for the determination of mass transfer coefficient K, transport parameter $D_{am}/K\delta$ and permeability constant A **115**
A. Gómez Gótor, S.I. Bachir and O. Pérez Baez (Spain)

Modelling of a transmembrane evaporation module for desalination of seawater **119**
C.M. Guijt, I.G. Rácz, J.W. van Heuven, T. Reith and A.B. de Haan (The Netherlands)

Construction and commissioning for membrane desalting **127**
C. Harris (USA)

Corrosion of copper-nickel alloys in pure water **129**
T. Hodgkiess and D. Mantzavinos (Scotland)

Water transport phenomena in 'green' and 'petrochemical' polymers. Differences and similarities **139**
A.L. Iordanskii, P.P. Kamaev, A.A. Ol'khov, A.M. Wasserman (Russia)

Simulation of thermal desalination processes **147**
Á. Jernqvist, M. Jernqvist (Sweden) and G. Aly (UAE)

Transport water and molecular mobility in novel barrier membranes with different morphology features **153**
P.P. Kamaev, A.L. Iordanskii, I.I. Aliev, A.M. Wasserman (Russia) and U. Hanggi (Germany)

Purification of galvanic sewage from metals by electrodialysis **159**
R. Klischenko, B. Kornilovich, R. Chebotaryova and V. Linkov (Ukraine)

Recognition of membrane fouling: testing of theoretical approaches with data on NF of salt solutions containing a low molecular weight surfactant as a foulant **163**
T.V. Knyazkova and A.A. Maynarovich (Ukraine)

Improvement of evaporating installations by means of heat transfer enhancement in vapour generating tubes **171**
Y.A. Kuzma-Kichta, A.S. Sedlov, A.I. Abramov, Y.A. Shkondin, D.V. Buyakov, G.V. Presnov and A.A. Borisov (Russia)

Analysis of membrane fouling in the treatment of water solutions containing humic acids and mineral salts **179**
M. Kabsch-Korbutowicz, K. Majewska-Nowak and T. Winnicki (Poland)

The effect of gas bubble flow on ultrafiltration efficiency **187**
K. Majewska-Nowak, M. Kabsch-Korbutowicz and T. Winnicki (Poland)

Study of evaporation efficiency in membrane distillation **193**
L. Martínez-Díez, F.J. Florido-Díaz and M.I. Vázquez-González (Spain)

The requirements to successful centrifugal pump application for desalination and power plant processes 199
A. Nemdili and D.-H. Hellmann (Germany)

Analysis of eletrodialysis water desalination costs by convective-diffusion model 207
V.V. Nikonenko, A.G. Istoshin, M.Kh. Urtenov, V.I. Zabolotsky (Russia), C. Larchet and J. Benzaria (France)

Submarine seawater reverse osmosis desalination system 213
P. Pacenti, M. de Gerloni, M. Reali, D. Chiaramonti, S.O. Gärtner (Italy), P. Helm and M. Stöhr (Germany)

Treatment of an industrial effluent by reverse osmosis 219
A. Pérez Padilla and E.L. Tavani (Argentina)

A simplified RO process design based on understanding of fouling mechanisms 227
A.G. Pervov (Russia)

Improve RO system performance and reduce operating cost with FILMTEC fouling resistant (FR) elements 249
J.A. Redondo (Germany)

Small-waste technology of water desalination at thermal power stations 261
A.S. Sedlov, V.V. Shischenko, V.F. Ghidkih, R.M. Chasiachmetov and Y.I. Pichushkin (Russia)

Effects of water quality on silica fouling of desalination plants 267
R. Sheikholeslami and S. Tan (Australia)

Desalination plant with absorption heat pump for power station 281
V.V. Slesarenko (Russia)

Intensification of the regime of thin film desalination plants 287
V.N. Slesarenko (Russia)

Application of membrane systems for COD removal and reuse of waste water from anaerobic digestors 293
J. Castelblanque and F. Salimbeni (Switzerland)

Nuclear seawater desalination — IAEA activities and economic evaluation for southern Europe 301
P.J. Gowin and T. Konishi (Austria)

AUTHOR INDEX 309
